

Public service has always been an important part of the club's life. Above, Tom K3YPO transmits messages during the big National Disaster Medical System drill in 1987 at the University of PA Hospital. MARC was one of many clubs that cooperated with Eastern PA ARES in this mass-casualty exercise.

MARC has provided comm for many parades and a-thons. Above, a group prepares for a mid-90's Memorial Day Parade in Radnor Township. Left to right: unidentified, Carter KD3AO, Ned WQ3Z, Steve KD0VA, Bob W3SA, Beth KA3GKI, Bob W3ZQN.

For many years an annual event on MARC's calendar was sending holiday radiograms for patients and staff at Bryn Mawr Hospital. Operators at home received the messages on VHF and relayed them into the National Traffic System. As times changed, the usefulness of the event diminished, and it was discontinued.

Some years, we added a Santa Claus message component for children in the hospital at Christmas.

Another year at Bryn Mawr, we see Rob WI3S and Janet KA3VTQ transmitting messages.

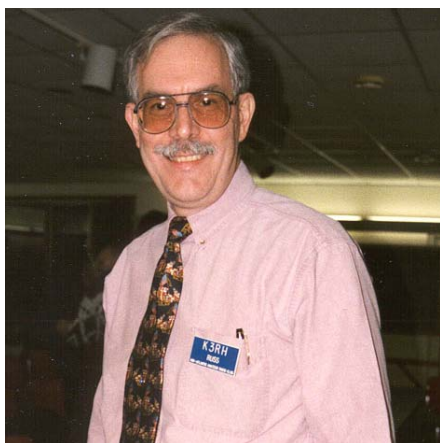

From 1996 on, MARC was invited to have a car in the Memorial Day parade in Wayne as well as to provide safety communications for the event. Below, Carter N3AO shows the flag for Amateur Radio.
