HOW TO FIND A MEMBER ON THIS LIST

Members are listed alphabetically by callsign suffix (the letters following the call area digit), similar to the way that paper callbooks were organized. For example, K4BF comes before W3BG. If several members have the same suffix, they appear in alphabetical order of prefix. For example, K3DAT comes before N3DAT. Unlike paper callbooks, we do not separate calls by call area digit. Because most members are 3's, sorting by the digit would not be helpful.
